

General Service – Rate 20 (GS-20)

Effective Date: 1 September 2025 Order No.: 2025-E-015

1 Schedule Identification

Field	Value
Rate ID	20
Tariff Code	GS-20
Service Category	Small Commercial / General Service
Phase Availability	Single-phase or Three-phase
Nominal Voltage	≤ 480 V, 60 Hz
Territory	Entire Company Service Area

2 Applicability

Available for non-residential customers with a maximum monthly demand ≤ **100 kW** at a single point of delivery for lighting, power, and miscellaneous business purposes. Service shall not be resold or shared.

3 Character of Service

- Alternating Current (AC)
- 60 Hertz, single or three-phase
- Secondary service at standard voltages up to 480/277 V

4 Monthly Charges

Component	Description	Rate	Unit
Customer Charge	Fixed charge per meter per month	\$ 25.00	USD/Month
Demand Charge – Billed kW	All kW over 10 kW	\$ 3.50	USD/kW
Energy Charge – Tier 1	First 1 000 kWh per billing period	\$ 0.07500	USD/kWh
Energy Charge – Tier 2	All kWh over 1 000 kWh	\$ 0.06000	USD/kWh

4.1 Determination of Billing Demand

The Billing Demand each month shall be the highest 15-minute integrated kW demand recorded during the billing period **less 10 kW**, but not less than zero.

4.2 Minimum Bill

The greater of (a) the **Customer Charge** or (b) the **Demand Charge** applied to 10 kW.

5 Adjustments & Riders

1. **Fuel Cost Adjustment (FCA):** Applied to all kWh billed each month per the Company's FCA formula.
 2. **Power Factor Adjustment:** When the monthly average power factor is below 95 %, a charge of \$0.30 per kVAr of lagging reactive demand will apply.
 3. **Demand-Side Management Rider (DSM):** Charge or credit as approved by the Public Utility Commission.
 4. **Regulatory Assessment:** Percentage surcharge as mandated by state statute.
 5. **Taxes:** Applicable municipal, county, and state taxes added to the bill.
 6. **Late Payment Charge:** 1.5 % of any unpaid balance after the due date.
-

6 Payment Terms

Bills are due and payable **15 days** after the billing date. Failure to pay may result in disconnection pursuant to Commission regulations.

7 Contract Period

Service is provided on a **month-to-month** basis and continues until terminated by either party under the Company's Terms and Conditions.

8 Illustrative Bill Calculation

(Example assumes a billing period with 1 200 kWh and 15 kW maximum demand)

Line	Calculation	Amount (USD)
1	Customer Charge	\$ 25.00
2	Billing Demand: $(15 \text{ kW} - 10 \text{ kW}) \times \3.50	17.50
3	Energy Tier 1: $1\,000 \text{ kWh} \times \0.07500	75.00
4	Energy Tier 2: $200 \text{ kWh} \times \$0.06000$	12.00

Line	Calculation	Amount (USD)
5	Subtotal	129.50
6	Fuel Cost Adjustment (example: $\$0.00450 \times 1\,200 \text{ kWh}$)	5.40
7	Power Factor Adjustment (if applicable)	0.00
8	DSM Rider (e.g., 1 % of Line 5)	1.30
9	Total Before Taxes	136.20

9 Definitions

- **Customer Charge:** Fixed monthly amount covering meter, billing, and customer service costs.
- **Demand Charge:** Charge based on the customer's peak kW demand in excess of the included 10 kW block.
- **Energy Charge:** Charge per kilowatt-hour consumed, exclusive of riders.
- **Fuel Cost Adjustment (FCA):** Monthly adjustment reflecting actual fuel and purchased-power costs.
- **Power Factor:** Ratio of real power to apparent power, expressed as a percentage.
- **Billing Period:** Interval between consecutive meter readings, typically 28–34 days.
